

## MICRON

MID-SIZED GAMING MOUSEPAD 320X270X3MM

## THE RIGHT SIZE

Not too big. Not too small. We reached the conclusion that 320x270mm was the way to go. Flexible and easily portable, but sized enough to ensure that the gamer's wider movements won't leave the mousepad area.

## **EVERLASTING COMFORT**

Anti-slip rubber base with 3mm in thickness to ensure a stable and comfortable usage.

The stitched borders ensure that the edges won't fray and can withstand the wear and tear of any hardcore gamer.
